eero

eero **PoE Gateway**

- Our first device with 10 gigabit Ethernet, eero PoE Gateway delivers our fastest wired experience.

- With a 140W power supply, eero PoE Gateway is a 10-port wired gateway that supplies 100W of pooled power for PoE-enabled devices.

- Designed for network closet or rack installation, eero PoE Gateway discreetly powers the ultimate whole-home or small business wifi experience.

TOP PRODUCT BENEFITS

Fast network speeds

The two 10 GbE ports support wired speeds up to 9.4 Gbps (upload and download).

Powers your PoE system

With a 140W USB-C power supply, PoE Gateway is a wired gateway that supplies 100W of pooled power for PoE/PoE-enabled devices, up to 802.3bt class 5.

Minimizes the need for switching

eero PoE Gateway can terminate ISP connections up to 10 Gbps on either of two 10 GbE ports and also includes eight PoE-capable 2.5 GbE ports, minimizing the need for a third-party PoE switch.

Manage it all from the app

With eero for Pro Installers, you can set up, manage, view, and troubleshoot all your customers' networks in the eero app.

Gets better over time

Receive new features and updates automatically to keep improving your network's performance and security.

Free support when you need it

If you have questions during the setup process or encounter a technical issue, our expert wifi troubleshooters are ready to help by phone in the US at 1-877-659-2347 or by email at **support@eero.com**
